Summary

Analytical recent Computer Science graduate with a strong foundation in Machine Learning and Data Science. Skilled in the complete data lifecycle, from cleaning and EDA to building predictive models with Python and Scikit-learn. Possesses a unique advantage in developing interactive data visualizations and user-centric dashboards using React and TypeScript. Eager to secure a Junior Data Scientist or Data Analyst role to transform complex data into actionable insights.

Education

Raghu Engineering College, Computer Science — Dec 2021 – May 2025

- CGPA: 7.6/10
- **Coursework:** OOPs, Databases, Data Structures, Operating Systems, Computer Networks.

Skills

Programming Languages: Python, JavaScript, TypeScript, React

Data Science: pandas, NumPy, scikit-learn, Tableau, matplotlib, Statistical analysis and modeling

AI/ML Frameworks and Libraries: PyTorch, TensorFlow, Hugging Face Transformers, NLTK, OpenAI API

Databases: MySQL, Oracle, MongoDB

Operating Systems and Networking: Linux, Windows Server, Network protocols, Cybersecurity fundamentals

Development Tools and Methodologies: Git, GitHub, VS Code, Eclipse

Projects

Weed Identification (Live Demo) — github

- **Problem:** Farmers struggle to differentiate weeds from crops, leading to decreased agricultural productivity.
- I developed an AI-based solution to help farmers identify weeds in their crops using high resolution images.
- Technologies Used: YOLOv9, Crop-Weed Detection, Deep Learning, PyTorch

Image Steganography (Live Demo) — github

- Developed a dynamic and responsive user interface with Next.js and TypeScript, creating a seamless workflow for users to upload images, hide messages, and extract them.
- Implemented the core steganography logic in TypeScript, manipulating individual image pixels using the Least Significant Bit (LSB) algorithm to embed data invisibly.
- Architected the application using a scalable, component-based structure to ensure code reusability and long-term maintainability.
- Technologies Used: Next.js, TypeScript, JavaScript, HTML5, CSS

Certificates

Introduction to Front-End Development – Meta

Oracle Cloud Infrastructure 2025 Certified Data Science Professional – Oracle
